Dear Parent/carers,

School Connect Project

As part of our work on Climate Change we are delighted to be taking part in the 'School Connect Project'.

The project is to recycle unwanted clothes, bags and shoes and we have our very own Smart Recycle container in the main car park next to entrance door.

Any unwanted clothes can be put in a carrier bag and posted into the container. The clothes can then be recycled and redistributed.

As part of the project for every 1000 pounds raised, the school receives an apple tree to plant in the school grounds.

We hope you can support us with our recycling project and together we can support a more sustainable future.

Further details about the project are attached.

Kind Regards

S Overfield
Head teacher
